

MAGNETIC PLACARDS

Magnetic Tank & Cylinder Safety Placards

For CHLORINE, AMMONIA and SO₂ cylinders & ton containers

Heavy duty magnetic backing insures they stay where you put them

Large 5" x 5" size for easy viewing

Magnetic tank and cylinder status placards help water and wastewater treatment plant operators quickly determine which cylinders are FULL, which are EMPTY and which ones are IN USE. Perfect for chlorine, SO₂ and ammonia 150 lb cylinders and ton containers. Heavy duty magnetic backing insures

signs stay where you put them. No more wondering whether tanks in storage are full or empty, or which side of the switchover is being fed from.
